BIOGRAPHIES OF CONTRIBUTORS

Professor Majed Abdullah Al-Mashari Al-Saud is the Chairman of the Saudi Computer Society and Editor of the Saudi Computer Journal, the Business Process Management Journal (BPMJ) and a member of the editorial advisory board of several international, refereed journals in the field of eGovernment, eCommerce, ERP, BPR and IT management. He served on the international scientific committees of more than 14 IT conferences in the US and Europe, has also acted as a

referee for more than 50 papers and has been published widely in internationally-recognized IT journals and conferences. The recipient of several awards and certificates of recognition ; among these are 3 EMERALD Citation of Excellence Awards for Outstanding Contribution to Knowledge for 3 of his journal articles and one ANBAR Citation of Excellence Award for Outstanding Contribution to Knowledge for another journal article. Served as the chairman of the eGovernment Team of the National IT Plan and as a member of the eBusiness Consulting Team of the Ministry of Commerce. Professor of Electronic Government at the College of the Computer and Information Sciences of King Saud University and the Chairman of the Computer and Information Sciences Department of Prince Sultan University. He was the Chief Conference Chair for the 18th National Computer Conference in Riyadh 2006. Has a wide range of consulting experience for several government and private organizations in the areas of eCommerce, eGovernment, Internet deployment, Enterprise Resource Planning (ERP), Customer Relationship Management (CRM), Business Process Re-engineering (BPR), and IT management and strategic planning, among others. Sid-Ahmed Selouani received his B.Eng. degree in 1987 and his M.S. degree in 1991 both in electronic engineering from the Algiers University of Technology (U.S.T.H.B). He joined the Communication Langagière et Interaction Personne-Système (CLIPS) Laboratory of Université Joseph Fourier of Grenoble. He got a Docteur d'État degree in the field of signal processing and artificial intelligence in 2000. He is currently

Associate Professor and Chair of the Human-Machine Interaction Laboratory at the Université de Moncton, Campus de Shippagan. His main areas of research include new models in E-Commerce, mobile communications, ubiquitous systems, assistive technologies, and E-learning solutions. Dr Selouani is actually the representative of Université de Moncton, Shippagan campus, in the Alliance to Promote Fair Trade and Sustainable Development. Dr. Selouani received numerous grants from national and international institutions for his research projects. Dr. Selouani co-authored more than 50 peer-reviewed scientific publications. His papers have been cited in numerous papers in the scientific literature. E-mail: selouani@umcs.ca

Dr. Yousef Ajami Alotaibi received his B.Sc. degree in computer engineering from King Saud University, Riyadh, Saudi Arabia in 1988. After that he received his M.Sc. degree and Ph.D. degree in computer engineering from Florida Institute of Technology, Florida, USA, in 1994 and 1997, respectively. From 1988 till 1992 and from 1998 till 1999 he joined Al-ELM Research and Development Corporation, The National Information Center (NIC) Riyadh, Saudi Arabia, as research engineer.

During his work at NIC he worked and participated in designing and implementing encryption and communication systems for the NIC and for the private sectors. From 1999 till now he joined Computer Engineering Department, College of computer and information sciences, King Saud University as an assistant professor, His research interests are digital speech processing specifically speech recognition and Arabic language and speech processing. Also he is currently working on Arabic speech recognition projects with King Abdulaziz City for Science and Technology (KACST). E-mail: yalotaibi@ccis.ksu.edu.sa

Emad Abuelrub is an associate professor and dean of the Faculty of Science and Information Technology at Zarqa Private University, Jordan. He received his Bachelor degrees in computer engineering and computer science from Oklahoma State University, USA, in 1984 and 1985, respectively. He then joined the Alabama A&M University, USA, where he obtained his MSc degree in computer science in 1987. He completed his PhD degree in computer science from Louisiana

State University, USA, in 1993. He is the Editor-in-Chief of the International Arab Journal of Information Technology (IAJIT) and the Secretary General of the Colleges of Computing and Information Society, Association of Arab Universities. He is involved in the organization of many international conferences in computing and information technology. His areas of interest include parallel and distributed systems, interconnection networks, fault-tolerance computing, parallel algorithms, parallel architectures, and e-commerce. He is a member of the IEEE, ACM, and JEA. E-mail: abuelrub@zpu.edu.jo

Layla Hasan is an instructor at the Department of Management Information Systems, Zarqa Private University, Jordan. She received her Bachelor degree in computer science and an MBA from the University of Jordan, in 1996 and 2004, respectively. Currently, she is pursuing her PhD in information systems at Loughborough University, UK. Prior of joining Zarqa Private University, she worked as a manager for the computer center at the Association of Arab Universities, Jordan.

Her research interests include e-commerce, user-usability, and quality of websites. E-mail: l.hassan@zpu.edu.jo

Khlood Alserehi Alharbi is a PhD candidate at the University of Leicester, UK, Her research focuses on the use of web-based systems to enhance education and investigating the factors contributing to a better use and adoption of e-learning systems by the Saudi students at the university level. She had MA in *Applied Linguistics and TESOL (2001)* from the University of Leicester, UK, and BA in *English Literature and Linguistics (1998)* from King Abdul Aziz University.

E-mail: ka41@le.ac.uk

Said S. Al-Gahtani is a professor of computer information systems in the Department of management information systems at King Khalid University, Abha, Saudi Arabia. He earned a B.Sc. in Systems Engineering from King Fahad University of Petroleum & Minerals, M.Sc. in Computer Sciences from Atlanta University, Atlanta, Georgia, and a PhD in Computer-Based Information Systems from Loughborough University, Loughborough, UK. His research interests include the user

acceptance of information technologies, the modeling of IT acceptance, end-user computing, and organizational cross-cultural research. He has published journal research articles in the *Journal of Global Information Management*, *Information & Management*, *Information Technology & People*, *Journal of Global Information Management*, *Journal of Global Information Technology Management*, *Informa-*

tion Technology for Development, Information Resources Management Journal, and the *Behaviour & Information Technology*. E-mail: ssalgahtani@kku.edu.sa

Basit Qureshi received his Master of Science degree in Computer Science from [Florida Atlantic University] in 2002 and his Bachelor of Science degree in Computer Science from [Ohio University], OH USA in 2000. He is currently working at Prince Sultan University as a faculty member in the College of Computer and Information Sciences. He has taught numerous Computer Science Courses at the undergraduate level. His research interests include performance evaluation of wireless network protocols, Wireless Networks Security and implementation of applications for Mobile Ad Hoc wireless Networks. To date he has published in various reputable international journals and conferences. He received the best faculty teaching award from PSU in 2008/9. E-mail: qureshi@psu.edu.sa
